

Plastic rowing boat

The fishing boat is a kind of fiberglass rowing boat, which is a good choice for the camper or fisher, or anyone else who is looking for a best-quality, safe, and durable fishing boat.

It's material - FRP(glass fiber reinforced plastics) is a very good corrosion resistant material with good resistance to acid, alkali, salt and various oils and solvents of the atmosphere, water, and general concentration. Using this kind of material, the fishing boat is very safe, comfortable and durable. The hull of our fishing boat is high strength, lightweight, corrosion resistance. Also, the appearance of our fishing boat could be colorful and beautiful. We can also print customer's logo on the boat.

We, **Ulike** leisure equipment Corporation is a professional supplier and exporter, who is specialized in boat products for more than 5 years. We devote ourselves to produce leisure equipment products to offer funny and happy life for people. To be a producer for the fishing motor boat, we have clients come from Europe, Asia, America, Canada and so on. Many clients are satisfied with our reliable quality and good after-sale service. Our specialized design department keeps developing new products for clients to explore new markets. We also developed inflatable fishing boat. Compare to large fishing boats, the inflatable fishing boat is usually small, portable, and flexible.

Usually, the capacity of the fishing boats is 3 to 4 person. The Scope of application of fishing boat is coastal beach, sea, park, and lake, where the water depth must be deep, so the player could rowing freely. People who near the lake usually will have the cheap fishing boat to have fun or to fishing. On the weekend, It's a good choice to relax you and your family on a fishing boat in the lake, the whole family can enjoy the leisure time together.
